Music for Dreaming ensemble: acclaimed musicians
courtesy Melbourne Symphony Orchestra.

music for dreaming

"I played the music while I was pregnant
and at the hospital during labour. Music for
Dreaming is still doing wonders, better than any
dummy for settling. Hayden was born to it, now
he's growing with it."

Teresa Thomas, Mother, Australia

"At least nine out of ten babies settle almost
immediately by this music...We also teach deep
relaxation therapy to the mothers, and again we
use the music for that."

Mother-Baby Unit Manager, Northpark Hospital, Australia

The Creator

Cherie A Ross is inspired by the power of music to enhance the relationship between mother and baby and to reduce the stress of babies in Intensive Care.

Her research in this field has been published under the title "Music as a complementary therapy to mother/baby care".

Cherie is an international presenter in the area of Music Therapy, specifically in relation to mother/baby care.

Cherie says, "I am privileged and honoured to be able to offer something that assists in nurturing both mother and baby that is so simple, yet so effective."
