

Glue flap - no ink to appear.

"As we have to be quite selective in what music we use, it is reassuring to know that 'Music For Dreaming' is backed up by respected research"

NEO-NATAL UNIT, ROYAL CHILDREN'S HOSPITAL  
MELBOURNE AUSTRALIA

"We like the quality of the sound, the smooth transitions from tune to tune and the way the rhythm seems to fit comfortable physiological patterns"

WINNICOTT BABY UNIT, ST MARY'S HOSPITAL  
LONDON UK

music for dreaming®

Scientifically researched, this continuous instrumental music deeply relaxes adults and gently soothes baby to sleep. The 3/4 tempo is that of the resting human pulse. Almost an hour, the pure sound and gentle flow of this music supports the natural sleep cycle. Enjoy this special gift of music, I wish you a silent night...
